

The Schneider Electric System

The Schneider System combines robust tank monitoring equipment, market leading OptiFill™ tank fill optimization software, and Dispatch Compass™ routing and dispatching software to provide a complete set of tools to dramatically improve the productivity of any liquid distribution business. Our wireless tank monitoring equipment is unmatched in breadth of product, radio strength, and reliability. The system can communicate via cellular, satellite, Ethernet, or landline phone to ensure the best solution for any application.

OptiFill™ enables you to unlock the power of your wireless tank monitoring system. This delivery optimization software allows you to achieve maximum fills on every delivery, even difficult multi-tank locations.

Dispatch Compass™ is designed specifically for the liquid distribution business and easily schedules the most efficient routes.

With these powerful tools in place, your fleet will travel fewer miles in less time for less cost than ever before. And with higher levels of efficiency, you can service more customers and generate more profits without adding additional trucks or drivers.

The Schneider intrinsically safe cellular propane monitor is approved for use in flammable atmospheres. It is UL and CAN/CSA certified so you can be sure it's safe to use in demanding environments anywhere in the world. And like other Schneider products, its ease of installation, long battery life, and rugged enclosure ensure a long life of excellent performance.

Features

- Web based reporting
- Approved for use in flammable atmospheres
- Flexible reporting schedule
- End of month reports
- Low and high-level alarms
- E-mail, fax, and text message alerts
- Automatic fill and theft detection
- Battery and radio strength indicator
- Monitor bulk storage tanks
- Single website for cellular and landline service
- Can use existing remote ready dials
- 5 yr. battery life

Part No.	Description
DG0001VIS	Cellular LP Monitor w/5' Wiring Harness - C11/Div1 - CDMA
<i>Remote Ready Dials for DG0001VIS</i>	
5909S02733	Junior Rochester Dial for Above Ground ASME Tanks
5909S02772	Junior Rochester Dial for 420 lb. Tank
5986S02733	Rochester Senior Dial for Above Ground ASME Tank
130022	Taylor A Remote Ready Dial for Above Ground - guide hole at E
DG0001V	
DG0001V	Cellular LP Monitor w/5' wiring harness - CL1/DLV2 - CDMA
<i>Bulk Tank Dials for DG0000VIS & DG0000V</i>	
GSLRH10100	Rochester 8" Dial for Schneider w/10' Wiring Harness
GSLTH10100	Taylor 8" Dial for Schneider w/10' Wiring Harness
